**The Cambria International Film Festival 2004**

**20 August – 6 November 2004**

Welcome to the Cambria International Film Festival. I sincerely encourage you to experience the festival from top to bottom and enjoy every moment of it. For me to succeed in leading this festival, much depends on you and hopefully such an outcome.

-“One with understanding understands that cinema is more than entertainment – it is a way of life. It is an alternative to social strife and political discontent, to boredom and ignorance, and to the emptiness of the everyday. This is why we need to make an effort to understand the meaning and purpose of cinema.”

I am especially thrilled that for this year, the first time, the Festival had substantial coverage and is being broadcast on television. For the first time, the Festival had substantial coverage and is being broadcast on television. For the first time, the Festival had substantial coverage and is being broadcast on television. For the first time, the Festival had substantial coverage and is being broadcast on television.
